Subject: Redo of closed meeting

Good afternoon,

Susan Bisio's blog about the Nov 8, 2021 closed meeting indicates that we on council did not go into a closed session. I watched the video, and she is correct.

I see how the confusion during the meeting happened: when we voted to accept the audit, I think some of us incorrectly considered that to be a vote to go into a closed session. I don't understand the inclusion of a vote in the draft minutes, because we did not vote to go into a closed session. What do we have to do, if anything, to correct this?

Thank you,

Sue Wylie
