Tom,

Laura Rodgers just wrote the following message to me. What is your opinion, please, about this Susan Bisio activity? For all of us in public service, volunteers, seeking to serve their communities, when does harassment become a legal issue?

"Just wondering if the application that I wrote in order to be a write in candidate is for the public to disburse. It was released in "Clarkston Secrets" and I am now getting texts with questions about the election and being told that they got it through my ballot application. This app has my home address, phone number, birthdate and signature on it. Now it is on the web. This is not cool at all."

Tom,

Laura wrote further.

"Thanks Eric. I worry with all that information out there on Facebook and the web as Clarkston Secrets is a .com that identity thief is a real possibility. Seems like although this might be a public document, that it shouldn't be for the public to have in their hands. Too much personal information."

She said Bisio included Bruce's personal information as well.

E
