

**INTERNATIONAL  
PURE WATER**

## **Mayor Saviano & IPW CLEAN WATER & HIGH QUALITY FILTERS**

### **IPW FILTERS**

The current versions of IPW Filters are the beta versions of the IPW filter! Because of our commitment to Illinois manufacturing and jobs, our IPW 2.0 filters will be available the first week of July. This delay was fully supply-chain-related and has been remedied!

### **FOOD GRADE**

Our retro-fitted pitcher uses FOOD GRADE glue to seal the cartridge in place. THIS IS TO PREVENT LEAKAGE AND IS NOT CONTAMINATING YOUR WATER.

### **NO FILTERS ARE USED!**

All of our filters are pressure tested and thoroughly rinsed. Any residual moisture is a result of our quality control to ensure the filter is functioning properly before delivering it to you.
