71 N Main Street Tree Trimming

To KPK <[REDACTED]> Copy Michael Moon <moonscreen@comcast.net>

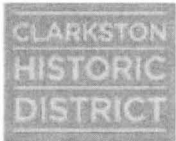

Good Morning Kim,

I just wanted to confirm our conversation from last week. As an HDC, we very much want to thank you for submitting your most recent application for the tree trimming and removal at your home. As we discussed, the HDC does not need to hear this application for a number of reasons; we do not have a specific ordinance for landscaping, the work is being done in the back yard and the tree trimming and removal will not change the street scape.

Thank you again and best of luck on your project!

Many Thanks,

Rob Hauxwell, Chairperson
Historic District Commission

Good Evening Kim,

I just wanted to let you know that we discussed your tree project at last night's HDC meeting and all of the commissioners were in agreement that the work that you're having done did not need to have a Certificate of Appropriateness issued. With all of the work being done in the back yard and not changing the street scape of North Main Street, it was out of our purview. We all wanted to thank you again for coming to the HDC with the application. Your willingness to work with us is much appreciated. Best of luck with this project and all going forward.

Many Thanks,

Rob Hauxwell, Chairperson
Historic District Commission
